Minnesota Valley Action Council is a community action agency that serves the nine counties in South-Central Minnesota. Since 1965, MVAC has delivered more than \$500 million dollars in services to create opportunities for people and communities. The majority of those funds helped stimulate our local economy as they were spent with local small businesses on behalf of low to moderate income families. MVAC provides assistance to families with its core programs - Thrift Stores, car donation, tax prep assistance, homelessness prevention, rental assistance, energy assistance, Head Start school readiness, work skills preparation, dislocated worker assistance, weatherization, and home improvement loans. These programs create opportunities for them to become self-sufficient.
